

ATTACHMENT C - MARKED-UP COPY OF CLAIM AMENDMENTS

Please cancel claims 4-7 without prejudice.

Please amend claims 1 and 3 as follows:

1. (Amended) An isolated and purified polynucleotide sequence encoding an immunogenic polypeptide that is a portion of the flaA [gene] coding region of Campylobacter, said polynucleotide sequence [consisting of] comprising nucleotides 13-1015 [all or a portion] of the DNA sequence of SEQ ID NO:1.

3. (Amended) An isolated and purified DNA sequence [that, because of degeneracy, encodes] encoding an immunogenic polypeptide comprising [consisting of] [all or a portion] amino acid residues 5-338 of amino acid sequence [according to Claim 2] of SEQ ID No:2.
